Our products are conditioned to air-conditioned environments for the best conservation and integrity of them.

- **We have high-performance products for the manufacture of lead-acid batteries:**
- Expanders : SLI; EFB; AGM; DEEP CYCLE and UPS.
- Tetrabasic Sulfate of Lead and Red Lead
- Fibers: Polyester; Acrylic and PP
- Structured Carbon Nanotubes
- Polyethylene Separators: Industrial and Automotive
- AGM Separators – Moto and Auto
- Cork Powder
- Pasting Belts - Cotton
- Magic Eye
- PP Handles

Products

- Industrial & Automotive

- Expanders : SLI; EFB; AGM; DEEP CYCLE e UPS

- Fibers : Polyester; Acrylic and PP

- Tetrabasic Sulfate of Lead and Red Lead

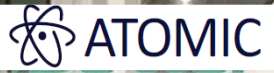

- Cork Powder

- Carbon nanotubes

Machinery and Equipment

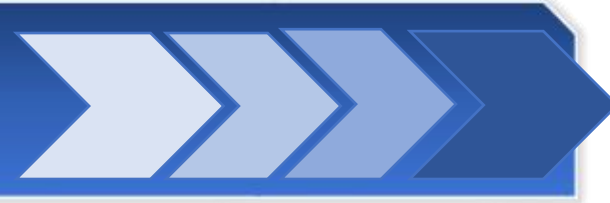

- We have the expertise of the production process and continuous improvement, we are able to offer:

- Industry, Machinery & Equipment Engineering Services
- Commissioning of machinery and equipment
- Pasting machine – Grid Casting
- Pasting Machine- Continuous Line
- Palletizer Robot
- Dividers
- Drying Oven
- Plate Stacker
- Mills Balls
- Barton Pot
- Automatic Assembly Line – Automotive, Motorcycle, and Industrial
- Finishing Line
- Molds
- Spare parts

Import Services

Direct import services:

We offer intelligent and innovative advice in foreign trade so that your company can operate with peace of mind. Whether in import or export, we are prepared with the best professionals in the market.
